PE AND SPORTS PREMIUM

Newton Road School believes physical education is an essential and integral part of a child's educational development. The core components of the curriculum centre on movement, key skills and social interaction. We believe that physical education should teach students to recognise the diversity of individual ability whilst helping them to understand that participation in sport is just as important as gaining success from it.

We want them to strive for excellence and to make the most of their sporting abilities. However, we also recognise the importance of teaching the young people in our care how to win AND lose, how to show correct sportsmanship and how to demonstrate respectful conduct and fair play.

Developing a balanced, Physical Education Curriculum, offering a variety of activities, provides students with the opportunity to develop acceptable fitness levels, a broad spectrum of skills and the knowledge necessary to use those skills for a lifetime of active participation. We feel positive participation in physical education will leave students with a legacy of success, facilitating an active lifestyle.
